Privacy Policy:

DVS processes your personal data exclusively for the purposes of the statutes and for the supervision of the membership. In addition, your data will be passed on to third parties only for fulfillment of the contract or if DVS is legally obliged to do so.

The legal basis for the data processing is the contract about your membership between you and the DVS according to article 6 paragraph 1 lit. b) EU GDPR.

The provision of the data is necessary for membership in the DVS. In the case of non-provision, the application for membership cannot be processed.

Who are we?

- DVS is a technical-scientific society which is involved with all matters concerning joining, cutting and coating. Our objective is the extensive promotion of welding and all the processes related to it.
- With our cooperative work relating to joining technology, we ensure that the latest results are reflected in research, education, technology, standardisation and certification.
- Our society has around 19,000 members. They are looked after by 13 state branches and 74 district branches nationwide.
- With more than 300 DVS educational establishments, we offer comprehensive training and further education possibilities throughout the country.
- In a large number of lectures, conferences, colloquia and other specialist events, we impart knowledge close to practice year after year.
- Around 2,300 experts in joining technology are active on our Technical Committee and in the nearly 200 working groups, subgroups and working parties associated with it.
- In close cooperation with the Research Association for Welding and Allied Processes of DVS, we guarantee research results close to practice.
- Due to cooperation measures with national and international bodies and organisations, we guarantee that the results of our work are taken into consideration, also at an international level.

Your advantages as an individual member:

- Free and unrestricted access to the DVS set of rules with its technical bulletins, technical codes and guidelines
- Special rates for DVS events
- Collaboration in national and international bodies of DVS
- Discounts on the products from DVS Media GmbH
- Specialist and personal contacts to experts in joining technology
- The latest first hand specialist and society information
- "DVS-Magazin" (free of charge)

Develop joining technology together with us

In our network, you encounter not only students and trainees but also experts from research, technology and education. Look forward to exchanging experience with welders, welding engineers or welding supervisors and make use of the possibilities of contacts to companies, scientists and engineers.

Materials technologists and materials testers, manufacturers, users, designers and developers, sales employees, managing directors and many others committed to joining technology are also members of our network.

Please send your filled-in membership application to:
